

COOKIES POLICY

El Corte Inglés uses cookies in order to provide a better service and offer you a better website browsing experience. We wish to inform you clearly and accurately about the cookies we use, detailing below what a cookie is, what it is used for, what types of cookies we use, what their purpose is and how you can configure or disable them, should you wish to do so.

What is a cookie and what is it used for?

A "Cookie" is a small file that is stored on the user's computer, tablet, smartphone or any other device with browser information.

All our users' "cookies" help us to improve the quality of our website, allowing us to control which pages or part of them are useful, which are not, and which could be improved.

Cookies are essential for the Internet to work, providing countless advantages when offering interactive services, making it easier to browse and use our website. Under no circumstances could cookies damage your computer. Quite to the contrary, when they are active they help us identify and address errors.

What types of cookies do we use?

According to the entity managing the cookie:

Our own cookies

Those that are sent to your computer from our own computers or domains and from which we provide the service you request.

Third-party cookies

Those that are sent to your computer from a computer or domain that is not managed by us but by another, collaborating, entity. For example, those used by social networks, or external content like Google Maps.

According to the timeframe during which they remain active

Session cookies

These are temporary cookies that remain in your browser's cookie file until you leave the website, and therefore will not be saved on your computer's hard drive. Information obtained through these cookies is used to analyse web traffic patterns. In the long run, this allows us to provide a better experience to improve content and enable its use.

Persistent cookies

These are stored on your hard drive and the website reads them whenever you make a return visit. A permanent website has a set expiration date. The cookie will stop working after that date. These cookies are used by us, generally, to simplify the purchase and registration services.

According to their purpose

Technical cookies:

These are necessary for browsing and for our website to function correctly. For example, they assist traffic control and data communication, allow access to restricted parts of the website, allow a purchase order to be processed, the use of security, store content to deliver videos or share content through social networks.

Personalisation cookies

These allow you to access the service with certain predefined characteristics based on a number of criteria, such as for example, language, the type of browser through which you access the service, the region from where you are accessing the service, etc.

Analytical cookies

These allow us to count the number of users and thus measure and carry out a statistical analysis of the use users make of the services provided. To do this, we analyse your browsing history on our website in order to improve the products and services we offer. Likewise, we use analytical cookies for device recognition and fraud prevention for certain transactions made using the Financial store card of El Corte Inglés, as well as for any transaction financed by that entity.

Advertising cookies

These enable the most efficient management of the advertising space which can be hosted on our web page.

Behavioural advertising cookies

These cookies store information on user behaviour obtained through continuous monitoring. Thanks to them, internet browsing habits are disclosed and we can show you advertising related to your browsing profile.

Purpose of each of the cookies used

Below, we list the cookies used on our website and their purpose.

List of cookies used by the domain empleo.elcorteingles.es

Our own:

Nombre	Descripción	Tipo	Duración	Deshabilitación e Impacto
rmk0	The user's encrypted e-mail address, if known. Initially created whenever a new user visits a Career Site Builder site and a session is created. Updated when the user provides us with an e-mail address. If SSL mode is turned on for entire site, cookie is sent from the browser to the server using a secure protocol, e.g. SSL.	Persistent or Session	If Persistent, cookie doesn't expire. If Session, cookie expires when the session ends.	Disable through browsers or computer configurations. User will not be able to log in.
rmk1	The encrypted ID of the user if one exists. Initially created	Persistent	If Persistent, cookie doesn't	Disable through browsers or

Nombre	Descripción	Tipo	Duración	Desahabilitación e Impacto
	whenever a new user visits a Career Site Builder site and a session is created. Updated when the user logs in or becomes a member and is assigned a user ID. IF SSL mode is turned on for the entire site, cookie is sent from the browser to the server using a secure protocol, e.g. SSL.	or Session	expire. If Session, cookie expires when the session ends.	computer configurations. User will not be able to log in.
rmk4	Whether or not to pre-fill the Subscribe box with the user's e-mail address, in order to avoid the user having to re-enter their e-mail address. Initially created whenever a new user visits a Career Site Builder site and a session is created. Updated when the user modifies their Remember Me preference. If SSL mode is turned on for entire site, cookie is sent from the browser to the server using a secure protocol, e.g. SSL.	Persistent or Session	If Persistent, cookie doesn't expire. If Session, cookie expires when the session ends.	Disable through browsers or computer configurations. Prefilling email address would not work.
rmk12	A number that indicates if the user has acknowledged the cookies policy banner. If the cookie is not set, then the banner may be presented. If they cookie is set and its value is 1, the banner may be suppressed. This cookie will persist across user sessions, no matter which type of cookies are enabled sitewide. Created as a persistent cookie when the user acknowledges the cookies policy banner by either viewing the cookies policy or choose to dismiss the banner.	Persistent or Session	If Persistent, cookie doesn't expire. If Session, cookie expires when the session ends.	Disable through browsers or computer configurations. User will keep seeing the cookie banner.
JSESSIONID	Single cookie placed on the users device during their session so the server can identify the user. This replaces the RMK0, RMK1 and RMK4 cookies when the site is configured to use Server Session Cookies. Created as a session cookie whenever a new user visits a Career Site Builder site. The value is not updated unless the current session ends, in which case a completely new JSESSIONID cookie is set.	Server Session	Cookie expires when the browser session ends.	Disable through browsers or computer configurations. User will not be able to log in.
Load balancer cookie	Cookie for session stickiness preventing a user from bouncing from one instance to another. Typically issued by F5 once upon new entry to career site, if prior cookie doesn't exist.	Session	Cookie expires when the browser session ends.	

Third party:

Nombre	Descripción	Host	Tipo	Duración
_ga	Cookie used by Google Universal Analytics to distinguish users.	Google	Persistent	Expires after two years.
_gat	Cookie used by Google Universal Analytics to distinguish users.	Google	Persistent	Expires 10 minutes from set/update.
linkedin_oauth_[id]	LinkedIn OAuth token. Initially created whenever a new user visits a Career Site Builder career site page that uses the LinkedIn JS API. Updated by LinkedIn throughout the user's session.	Linkedin	Session	When the browser session ends
linkedin_oauth_[id]_crlidc RT lang bcookie li_at JSESSIONID mst bscookie IN_HASH visit	Refer to the LinkedIn cookie policy.	Linkedin	Refer to LinkedIn documentation.	Refer to LinkedIn documentation.

How can you configure or disable your cookies?

You can allow, block or delete cookies installed on your computer by configuring your Internet browser options. Should you not allow the installation of cookies in your browser you may not be able to access some of the services and your experience on our website may be less satisfactory. In the following links you have at your disposal all the information to configure or disable your cookies in each browser:
